COMPANY OVERVIEW

About Us

Founded in 2012, Rakers Engineering specializes in providing professional solutions for all equipment needs, including commercial kitchen equipment and storage solutions. We offer a vast selection of high-quality commercial kitchen equipment for a variety of industries including hotels, restaurants, bakeries, frozen food and more. In addition to our extensive range of commercial kitchen equipment, We also specialize in the engineering, designing and manufacturing of commercial refrigeration systems. Rakers Engineering has been a trendsetter in refrigeration industry of Pakistan and we maintain our position as the market leader by investing in latest technologies to deliver the superior product to our clients by providing them professional solutions for storing dairy, fruits and vegetables, fish, meat, ice-cream and more. We aim to provide top-notch equipment and solutions that enhance productivity, efficiency, and performance for our valued customers. Being experienced and committed to excellence, We aim to be your trusted partner for all your equipment needs.

OUR PROCESS

Mission

Rakers Engineering is ready to deliver excellence through innovative solutions and superior quality products in the engineering and manufacturing industry. We aim to become a trusted partner in helping businesses achieve success and growth. We are committed to understanding our customers needs and providing tailored solutions while prioritizing exceptional customer service and support throughout the entire process.

Vision

To become a world class manufacturer of kitchen equipments to cater need of domestic as well as international clients.

CEO MESSAGE

WALEED AHMED

Our journey started with a big idea – combining my experience in the pharmaceutical industry with creative engineering solutions. I left my own pharma business with the mission of creating an engineering company that would provide solutions to the design engineers along with end users. I noticed that no one else was doing this kind of work in our country, and that's when the journey began which led to the creation of metal forming and fabrication, and Rakers was born. We began small but were all about coming up with new designs and making sure our customers were happy.

As time went on, Rakers became known for working with stainless steel, and we made a name for ourselves by being excellent at what we do. We made advanced solutions for big industries in Pakistan and set high standards for quality.

Today, Rakers has become one of the premier suppliers of commercial kitchen equipment and storage solutions through our broad range of represented products and solutions. However, this is just a milestone in our journey. We aim to be more than just a supplier as we aspire to be the trusted partner in research activities.

Our goal is to actively participate in research, not only by providing products but also by sharing our knowledge, research methods, and the most effective ways to conduct experiments. We are committed to finding better ways for our clients to access the materials they need for their research.

WHAT WE DO

Rakers Engineering Deals in Three Major Sections:

- ☒ Commercial Kitchen Equipments
- ☒ Cold Stores & Reefer Vans
- ☒ Exhaust & Fresh Ducting
